

A-team

Take Home Session 3

October 2, 2007

- A) Review the objective areas that you want to focus on in FALDO. Read all sections (don't worry, they are short!) and become familiar with possible methods for measuring your outcome.
- B) Begin to consider how you want to structure your program(s) to support your outcome(s) design.
- C) Review your feedback from Leslie & Joel on your outcome(s) and polish it up before next session. Be sure to bring your final draft of your outcome design with you to the next session.
