UGA STUDENT AFFAIRS 2025
Interrelated Strategies

**Essential Skills**
Improve student development of essential skills (e.g. agility, collaboration, communication, creativity, critical thinking, and leadership)

**Engagement**
Increase meaningful student engagement on campus and in the community

**Well-being & Success**
Increase student well-being and success across the educational experience

Key Initiatives

**Essential Skill Development and Experiential Learning**
Student Affairs will join in University-wide efforts to increase student awareness and development of skills essential for personal and professional success.

**Engagement, Leadership, and Service**
Student Affairs will unite existing staff from two departments to lead student engagement, leadership, and service for the campus, infusing leadership, service, and common advising across all types of student involvement.

**Digital Student Engagement**
Student Affairs will provide new and enhanced digital service and content delivery to students to provide more personalized, interactive, and proactive resources and support.

**Student Transitions**
Student Affairs will refocus existing staff and resources to provide dedicated support, in coordination with campus partners, for key times of student transition.

**Well-being and Success**
Student Affairs will bring together expertise across the division to increase student engagement in well-being and success through integrated well-being resources and support for students.
