Thank you for registering for the Student Affairs Data Summit!

Your responses to the following prompts will assist us in refining the agenda and producing data practices profiles for participating institutions. **We ask that only one questionnaire is completed per institution.** If you have more than one person attending from your institution, please work together or appoint one representative to complete the questionnaire on behalf of your institution.

Contact Kara Fresk at kfresk@uga.edu or 706-542-8229 with any questions or concerns.

Institution Name

Type

List all departments/units/offices reporting through student affairs at your institution. Separate each department/unit/office with a comma.

List the titles and associated departments/units/offices of student affairs staff with a significant responsibility for studying student affairs' contributions to student success. Use the following format - Title: Office - and separate each entry with a semi-colon (e.g., Director of Learning & Strategic Initiatives: Department of Learning & Strategic Initiatives; Assistant Director for Learning, Assessment, and Data Initiatives: Department of Learning & Strategic Initiatives).

Provide the following information regarding student affairs' efforts to centrally collect student affairs participant/engagement data.

<table>
<thead>
<tr>
<th>Expectations for tracking student interactions (e.g., all interactions are captured, engagement in certain activities is captured)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Method(s) used for tracking (e.g., manual logs, card swipes)</td>
</tr>
<tr>
<td>Technology solutions used (e.g., codeREADr, Campus Labs Engage)</td>
</tr>
<tr>
<td>Concerns with the accuracy of data collected</td>
</tr>
</tbody>
</table>
Indicate how your institution connects student affairs data with other institutional data. 
*Select all that apply.*

Student affairs has direct access to connect divisional data with other institutional data (e.g., demographics, academic indicators).

Student affairs shares data with another department/unit/office that connects the data and shares it back with student affairs. *Name the department/office/unit that connects the data.*

No current connection between student affairs and other institutional data.

Other - *Please describe.*

Does your institution conduct **descriptive** studies related to student affairs programs/initiatives and student success (e.g., participant characteristics, learning outcomes)?

Yes
No

Does your institution conduct **predictive** studies related to student affairs programs/initiatives and student success (e.g., factors that influence retention, identification of at-risk students)?

Yes
No
Name or describe the type of **descriptive** studies your institution conducts related to student affairs programs/initiatives and student success (e.g., participant characteristics, learning outcomes).

Name or describe the type of **predictive** studies your institution conducts related to student affairs programs/initiatives and student success (e.g., factors that influence retention, identification of at-risk students).

Indicate which of the following departments/units/offices at your institution conduct **descriptive** studies related to student affairs programs/initiatives and student success (e.g., participant characteristics, learning outcomes).

*Select all that apply.*

- Student affairs
- Institutional research
- Information technology
- Other - Please name departments/units/offices separated by a comma.

  - Other - *Please name departments/units/offices separated by a comma.*

Does your institution use a third party vendor for any of the following student affairs analytics efforts? *Select all that apply.*

- Descriptive studies related to student success (e.g., participant characteristics, learning outcomes)
- Predictive studies related to student success (e.g., factors that influence retention, identification of at-risk students)
- Early-alert/at-risk system for student outreach
- Other analytics efforts

Provide the following information for the primary vendor used for **descriptive** studies related to student success (e.g., participant characteristics, learning outcomes).

<table>
<thead>
<tr>
<th>Information</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vendor name</td>
<td></td>
</tr>
<tr>
<td>Length of time vendor has been used to conduct descriptive studies</td>
<td></td>
</tr>
<tr>
<td>Satisfaction with vendor</td>
<td></td>
</tr>
</tbody>
</table>
Provide the following information for the primary vendor used for **predictive** studies related to student success (e.g., factors that influence retention, identification of at-risk students).

<table>
